Where Global Capital Convenes

The **Dubai Family Office Investment Summit – 6th Edition** is bringing together an exclusive circle of family offices, sovereign representatives, institutional investors, government agencies and entrepreneurs for a day of deal-making and private exchange of insights shaping the future of global capital.

From macroeconomic realignment to strategic capital deployment, the summit is delivering a high-level dialogue in a setting defined by discretion, access and influence.

A Private Forum. A Strategic Advantage.

By invitation only, the summit continues to position **Epicon Capital Club** at the center of global investment conversations, bridging traditional wealth with emerging opportunities across markets.
